SUMMARY

I'm a focused and passionate Software Engineer with over 2 years of experience specializing in Flutter development. I have successfully developed apps from scratch and enhanced existing applications, while ensuring alignment with business requirements. I specialize in frontend architecture, REST API integration, and optimizing rendering performance, resulting in a 40% improvement in load times across key screens.

EXPERIENCE

Flutter Intern

Waltorn LLC

📅 04/2022 - 05/2022 📍 Remote

Innovative software company specializing in Flutter development

- Frontend development by translating UI/UX to Flutter code
- Backend integration, third party API integration, using REST APIs
- Online and Offline app State Management

- Debugging and Performance Optimization
- Internal and external team communication for feature related discussions and issues
- Regular communication with the client for status updates, and future discussions

Flutter Intern

Dexplat Technologies

📅 06/2022 - 08/2022 📍 Remote

Technological firm focused on mobile app development

- Frontend development by translating UI/UX to Flutter code
- Backend integration, third party API integration, using REST APIs
- Online and Offline app State Management
- Version management using Git, managing branches, pull requests, issues
- Debugging and Performance Optimization
- Regular communication with the client for status updates, and future discussions

Associate Software Engineer

Dexplat Technologies

📅 08/2022 - 06/2023 📍 Remote

Technological firm focused on mobile app development

- Frontend development by translating UI/UX to Flutter code
- Backend integration, third party API integration, using REST APIs
- Online and Offline app State Management
- Version management using Git, managing branches, pull requests, issues
- Debugging and Performance Optimization
- Regular communication with the client for status updates, and future discussions

KEY ACHIEVEMENTS

DSC bootcamp 101 Flutter Bootcamp Winner

Winner of the DSC bootcamp 101 Flutter Bootcamp

SKILLS

Android Studio

AWS

Build Tools

Dart

DCS

Flutter

Git

GitHub

Google Firebase

REST

Xcode

Gmail

EXPERIENCE

Associate Software Engineer

Sixlogics

📅 02/2024 - 05/2024 📍 OnSite

A firm specializing in innovative tech solutions

- Backend integration, third party API integration, using REST APIs
- Online and Offline app State Management
- Version management using Git, managing branches, pull requests, issues
- Collaborated with team members on feature development
- Regular communication with the client for status updates

Associate Software Engineer

Dexplat Technologies

📅 06/2024 - 04/2025 📍 Remote

Technological firm focused on mobile app development

- Frontend development by translating UI/UX to Flutter code
- Backend integration, third party API integration, using REST APIs
- Online and Offline app State Management
- Version management using Git, managing branches, pull requests, issues
- Debugging and Performance Optimization
- Internal communication for feature development

Flutter Developer

Infix Systems

📅 03/2025 - 05/2025 📍 Remote

Provider of technology solutions with a focus on mobile development

- Frontend development for unique features in Flutter projects
- Assisted in debugging existing applications
- Collaborated with teams to enhance app functionalities

EDUCATION

Bachelor of Science

Comsats University Islamabad

📅 09/2018 - 05/2022 📍 Islamabad, Pakistan
